TESTIMONIALS.
From Mr. JOHN J. MANON, Capilla del Señor, June 29, 1881.—The dip which you sent me I used according to directions, and I can assure you that it gave the desired result. During four years of practical experience of curing scab in sheep, I have seen many specifics used, and I consider Gilliard's the only one that gives complete satisfaction. It improves the quality and promotes the growth of the wool. For efficiency, economy and facility of application, I prefer it to any dip I have used.
From Mr. JAMES M. THOMAS, Estancia Santa Ines, Monte, June 29, 1881.—Having given a good trial to Gilliard's Dip, I have much pleasure in bearing my testimony to its valuable quality as a Sheep Dip. It destroys all insect life with which sheep are infested, mixes readily in cold water, does not injure the hands, and softens all hard parts, I shall strongly recommend it whenever an opportunity offers. As regards the cheapness, it should command a good sale.
"The market is being flooded with sheep dips, some of which are all that is claimed, and also by some which are worth little or nothing. Our readers will have noticed that *several preparations have been mentioned in letters recived from the camp showing that there are several good preparations.*"—B.A. HERALD.
NOTE—A sample drum will be supplied gratis to any Estanciero who is willing to give the Dip a fair trial and report on same

Alcock's Porous Plasters.
Calle San Jose 755, Buenos Ayres, 4th Feb. 1881.
J. A. Bennet, Esq.
195 Florida,
Dear Sir,
I have great pleasure in testifying to the efficacy of Alcock's Porous Plasters.
In 1876 I was attacked by Acutn Rheumatism in this city, for which the three Doctors who attended me could do absolutely nothing.
After being in bed for 9 months, unable to move any of my limbs, I was advised by a friend to try Alcock's Porous Plasters. I did so, and in 15 days I was completely cured, returning to my work on the City of Buenos Aires Improvements for Mr J O Simpson.
This fact is known to hundreds of persons here. You are at perfect liberty to publish this, and I trust it will induce others similarly afflicted to try them; they are certain to be benefited by them.
I remain,
Very truly yours,
W. MURPHY.

HAVAS' AGENCY

London 17th.

Telegrams from New York says that, according to report of the Agricultural Department at Washington the crops will be much below the average of previous years, owing to the exessively prolonged drought during the summer. Cotton, tobacco and other kinds of cereals have suffered most.

New York, 17th.

In spite of the apparent improvement in President Garfield for some days, the doctors are uneasy owing to a gradual deterioration of the blood, which was only perceived yesterday. All the efforts of science are now directed to checking this, and the result is considered very doubtful.

THEATRICALS.

The performance on Friday night at the Opera Theatre was a a repetition of the favors of our talented amateurs. The house, although not to say a poor one, was by no means equal to the first performance, which may be accepted as evidence that our community is too small to support a repetition of such treats, As for the fair actresses and talented actors, we have the same full measure of praise as on the previous occasion, there being but a slight change in the 'dramatis personæ' of the first piece, an officer from the gunboat having kindly filled the place of one of our most talented actors in the part of Sir Everton, which he ably and thoroughly interpreted. Indeed, to our mind, they could not produce a better or more refreshing amateur performance in England than what Mr. Martin and his histrionic staff afford us here; and, since so many ladies and gentlemen of our limited circle put themselves so much about to learn and play their parts, surely our public might have made an effort to fill the theatre. Comparisons are always odious, but we are forced to say that had the performance been Italian or German there would not have been standing room in the theatre.

Disguise it as we may, the stage has a great and powerful influence on the customs, manners and thoughts of a people and the constant attendance of Britishers at Italian and French theatres is the thin end of the wedge that gradually wears off their nationality.

Simple as is the little play of Checkmate, and absurd, and even 'chocante,' as the burlesque of Faust and the parodies on perhaps some of the sublimest airs of our operatic music, there is always a substratum of satire and sarcasm that to the English mind is a species of education of itself, of which, but for Mr Martin and his happy band, we, Peris of the Plate, should be completely deprived.

We return our best thanks to the kind actresses and actors, and believe they would have drawn just as much applause in Drury-lane as was rained on them in Calle Corrientes on Friday night.

We leave to others the task of tracing the influence of an English stage on the English colony here. We believe if we had more of such performances, but perhaps of a higher standard than Checkmate or Faust, they would remove much of that social subjectivity which stamps our public. As we said before, when treating on these amateur performances, we want them, if not for the eleemosynary support to our few institutions, for the still higher aim of bringing us all together, to break that exclusiveness that splits up into several parts what in truth should be one public and one society.

If Mr. Martin, with his performances, can put his foot on that half-dead-and-alive formalism that has so long predominated, then we are heart and hand with him in his reformation. The middle ages of English River Plate society have come to a close, and perhaps we can employ no more powerful agent than British plays on Argentine boards, to keep alive our traditions and nationalism, which seem to be gradually dying out and welding into a strong and vigorous whole what is still left of the British community in the Plate.

ARGENTINE CREDIT IN PARIS

A financial journal of Paris the *Renseignement Universel*, aside from its pretentious title, claims to know more of what is going on in this and the other worlds than any body else, published an article damaging the credit of this country. The object of the article was self-evident, but the motives that inspired the editor are problematical, unless he wanted to show off the little he knew about the Argentine Republic. Argentines may console themselves if ever they see any false geographical or political views about this country, since Frenchmen know very little of what is going on in Europe. We remember once travelling with a French lawyer in Germany, who wondered if he was really in France, when he entered a town called Treves. These French oversights are daily occurrences. Mr J. Lacroze, who resides in Paris, patriotically undertook the task of bringing the editor to his senses in a well-timed epistle, which appeared in the same paper :

Paris, August 8th.

Mr Editor,

I had the pleasure of reading your article on the loan of the Argentine Republic, recently launched. Hoping that you wish to give the readers of your journal reliable information, I take the liberty of rectifying the following errors which appeared in your article.

Firstly the loan you allude to is for the amount of 12 million dollars, and not 18 millions as you state; perhaps to the disgust of the writer of this article I may inform him that the loan was subscribed for 17 times over on the London and Paris exchanges. This proves the large credit that the Republic enjoys, in spite of your assertion 'that the creditors have no guarantee, and that the Argentine Republic is and always will be one of the poorest countries in America.'

You labor under a strange mistake when you say that the revenue of the Republic only amounts to 7 million dollars. I can assure and give you proofs that the revenue of the Argentine Republic last year amounted to $20,000,000, and that owing to the growing prosperity of the country the revenue for the current year is calculated to reach $24,000,000, or 120,000,000 francs.

The Argentine Republic has always punctually met her obligations, and her bonds on the London exchange are quoted amongst the highest, some being at par and at a premium.

But the ignorance of the writer of the article in question is most palpable and unpardonable, in reference to the Argentine Republic, when he asserts that the total exportation of the country 'consists of hides.' Certainly hides are one of the principal articles of export, but no country in the world beats the republic in the export of wool, tallow, bone-ash, etc.; furthermore, cereals from the republic begin already to compete in the European markets with the U. States.

This explains the fact that the revenue of the country exceeds the expenses; the writer in question actually doubts the fact and considers it a miracle in a Spanish Republic.

The writer furthermore greatly exaggerates in his allusions to the want of capital and labor in the republic; no doubt, as is the ease in all young countries there, two elements of progress are not in proportion to the immense wealth of their territories, but old Europe cannot maintain her present population, whilst her capitals find little remuneration, and already both men and money are turning to that great country, to the advantage of both continents.

In this phenomenon we see the natural development of the natural laws that sway population. Why should this loyic consequence, this natural current, therefore, be impeded?

To complete my rectification, I will add that the Argentine Republic possesses 5,723 kilometres of railways working and 10,000 more kilometres surveyed, and 15,000 kilometres of telegraph lines. The Republic spends one-fourth of its resources on public instruction.

These few items will give an idea of the rank that the Argentine Republic may claim amongst nations.

I have the pleasure, &c.,

TWO GOOD SCHEMES.

The canalization of the Lujan river at Las Palmas and the 'habilitacion of the 'Port' of Ensenada, to render it available for commerce, are two very old schemes, and not bad ones, if we could only carry them out. Cutting a canal from the Lujan to the Parana would be an immense convenience for river traffic, while getting Ensenada turned into a commodious port, for the trifle of

SUTTON'S Famous Home-Grown Seeds 'SPECIAL' collections of Vegetables and Flowers. Choisest Assortment. Sole Agents MOORE & TUDOR, 93 Maipu

£100,000, would certainly be the deadest bargain that ever an Argentine Government secured. Nevertheless, the Boca and Ensenada Railway Company offer to do the job for the money. They stipulate, however, that if they make the port, the Government must make a channel to enable ships to get into it. 'Hic labor!'

The following are President Roca's Messages to Congress on both these subjects :—

Buenos Aires, Sept. 16th.

To the Hon. Congress.

The Executive has the honour to submit for your approval two proposals, one by Messrs. Isidor Meyer and Co, who undertake to cut a canal from the river Lujan to the Parana, at Las Palmas, which would greatly shorten the river route to provincial ports and do away with the inconveniences caused by the tortuous course of our great river.

I do not seek to exaggerate the importance of, or pass an opinion on the merits of the two proposals laid before the Govt., but, nevertheless, feel bound to call your attention to the great facilities their realisation would afford for developing the internal and external trade of the Republic, while creating a harbour for the ships of our navy, thereby adding to the country's defensive strength.

God guard you.

JULIO ROCA,
B. Victorica.

Buenos Aires, Sept. 16, 1881.

To the Hon. Congress.

The Buenos Aires and Ensenada Railway Company have offered to make the Port of Ensenada available for ocean commerce for £100,000, provided the Government open and keep in repair a channel from the port to the Outer Roads.

The petitioners' plans and estimates were signed by competent parties, with the assurance that the shareholders had the capital ready to carry out the works, and enclosing a draft of proposed contract. As the Executive considered that a port there would be of great utility, the proposal was laid before the National engineers, who suggested some modifications and a new form of contract, which was duly agreed to by the company in London.

The Executive having no authority to decide in the matter, deems it its duty to submit it to Congress, together with the proposals and reports thereon, as well as the estimates of the Engineers' Departmeot as to what the Government's part of the work will cost.

With all the data and documents before you, Yoar Honourable House will be able to come to a decision on this important proposal.

ROSARIO.

(From our own Correspondent.)

September 16th.

This will be the ninth year that the province of Santa Fe has been plagued with the locust. Prior to 1873 this destructive insect was known in the upper provinces, but only in comparatively small numbers. It is true, however, that in 1870 a 'manga' that had probably gone astray, passed the Arroyo del Medio, and devoured the whole wheat crop of Mr Oldendorff; but the province of Buenos Ayres, up to the present time, has been singularly exempted from the ravages of the locust. Like good Provincianos they did not care to cultivate the acquaintance of the Porteños. I have written so much on this plague that it appears time lost to try and waken up the authorities to a sense of their duties. On one occasion I proved by figures that the country had lost more by locusts than it has ever done through Indian raids. In countries where the locust plague exists, in Algeria and the U. States particularly, the authorities are very active and the result is that the crops are saved and the pest decimated. But here it has been allowed to increase and multiply to such an extent that the country has become entirely at its mercy, and people work on, accepting the chances of utter ruin. A couple of years ago the locusts invaded the Island of Malta and Spain and part of Italy. They were immediately stamped out by the measures taken by the authorities. In the United States the National Government takes as stringent measures to extirpate them as it does to protect the country against the depredations of the wild Indians. Here neither Congress nor Executive appear to consider the subject worthy of consideration. In maize alone the locusts destroy yearly to the value of millions of dollars.

In Spain, in one year, five-sixths of the invading locusts were destroyed, and it was calculated that crops to the value of two hundred millions of pesetas were saved. When the National Government was in Paraua, measures were taken for the destruction of the locusts, and with an excellent result. The Government declared it obligatory the killing of the insect, and a sum was voted in order to pay a certain amount per arroba. This was the first attempt made in the country to battle with the plague. But the example was not followed in other parts of the country. I gave you last year a graphic account of how the colony of Roldan was saved, with a mere bagatelle of expense. Four thousand arrobas of locusts were killed, and if the paltry funds had not become exhausted, four thousand more would have been brought in. The moral to be drawn from this fact is that if the National Government would only grant a certain sum for a few years, the country would be able to stamp out the locusts.

I wonder what object the *Patria Argentina* desires to attain by its sensational memoirs of Mr Szemeredy, published in its columns. Were I inclined to believe in the innocence of that celebrated individual, the reading of these memoirs, evidently concocted from a rough diary, would leave me with a thorough conviction in a contrary direction. He tells the tale in every line, or the *Patria* does it for him. Faugh! Why does the *Patria Argentina* dirty its columns with such contemptible trash?

Mr Eddowes was in Rosario for a few days. He reports that the mines of the Company in Cordova are very promising. Little is doing as yet in extracting minerals, as the new machinery is not yet all put in. Their principal shaft is only forty metres deep, and Mr Eddowes tells me it is to be carried to the depth of two hundred metres, even if they have to cut through a strata of pure gold. Their mines were always rich until the water put a stop to the labours of the former owners. With the pumping appliances at the mines now this can never occur again.

I see by a paragraph in the papers that in the United States the telephone is to be applied in prisons to listen to the secret conversations of the prisoners with their friends or relatives. I think there must be some mistake in this. No people of Anglo-Saxon blood or laws would or could be guilty of such a mean and cowardly act. The very spirit of English Law is to insist on the criminal not criminating himself. If he insists on confessing, well and good, but he is never asked to, or traps laid for him. It cannot be in the United States that the telephone is to be put to such a base use. It puts one in mind of King James 1st's (the vulgar old blackguard) 'Lugs,' at the Tower, which Charles 1st ordered to be built up. Our Solomon had secret places contrived in the Tower whence he could overhear the conversation of the prisoners. He used to call those in his chuckling phraseology, his 'Lugs.'

We are to have thirty squares of our principal streets 'adoquinados.' Give us an English translation, please. Granite blocks won't do, for they may be any size. How would granite bricks do? But then there is the difficulty of finding a good corresponding verb and participle. The contract is already signed by the Municipality. This means 30 more squares of the city paved with the stone removed to give place to the 'adoquin.'

Distinguished arrival.—The first consignment of Tucuman Pitch-pine. After interviewing him I will report.

EDITOR'S TABLE.

The end of this section—Editor's Table—will be found in our Supplement to-day.

The 'special' for the Lujan Races will start from the Parque Station to-morrow at 9 a.m. The Weather looked favourable enough yesterday, but how the other and equally important W—the Wives—looked we cannot say. Our friend Darby (cousin of Darby the Blast) sent us the following reminder yesterday :—

"'Premio Argentino.' I see no reason to alter my prophecy of last week, and expect to see the following result on Monday :

"1st.—Aconite.
"2nd.—Narcissus.
"3rd.—Rambler.

"*Derby.*"

The arrival of several thousand millions of Locust visitors at Junin took the people of that town by surprise on Friday, and several leading 'chacareros' were taken suddenly ill with spasms in their pockets. The insects fairly covered the whole town; the gardens and quintas were black with them, and they flew into the houses in serried battalions. There is no shirking the unpleasant probability of this being a Locust year, and the only thing for the farmers is to adopt measures and organise to meet the foe when he comes in earnest. As yet he is only reconnoitring.

Our Chascomus colleague, *El Libre del Sud* says that the storm there last week was the most awful the oldest inhabitant remembers. The rumpus began at 8 o'clock p.m. on Thursday. The thunder was so loud and near that everybody became terrified. For three hours forked and chain lightning flashed through and across the heavens in all directions, while the rain fell in cataracts. About 11 o'clock there was a deceptive lull, but the Storm Fiend speedily recovered breath, and at midnight the war of the elements was more terrible than ever. A general panic prevailed in the town, and terrified screams and ejaculations came from every family house. In spite of the lightning falling on the town scores of times, no personal injury was sustained. Not a soul in Chascomus ventured to bed till towards morning, when the hurricane died away.

Mr James S. Ritchie's letter, published yesterday morning, is very much to the point, and bears us out in what we have so often said in reference to the abuses he denounces which are so calculated to frighten intending emigrants from Europe. There cannot be the slightest doubt as to their having had something to do with the recent serious decline in Immigration. Mr R's personal case is a very hard one, and we fear he has many companions in misfortune who, less plucky than he, have not made their wrongs public. We should recommend Mr Ritchie to lay his case before Her Majesty's Charge d'Affaires here, as it is manifestly one in which that official is bound to interfere.

The Dorrego family intend presenting to each of the five Police Commissaries who ran the Knights of the Night to earth a present worth $25,000 m|c.

There is nothing very stirring from Montevideo. To keep the army on its side, the Government is promoting the officers at such a rate that the 'ejercito' will soon be like that of Nicaragua—all officers and no soldiers. General Santos has gone to rural parts, which is looked on as a sign of trouble.

The sad affair in the Penitentiary the other day, when a sentry shot one convict dead and wounded two others, was the consequence of the continued insults which the prisoners offer to the troops on guard. A few minutes before the sentry was obliged to fire, 18 of the convicts were locked in the 'special' cells for having grossly insulted Lieutenant Munilla, the officer on guard. There must be something rotten in the discipline of the prison when this kind of thing goes on.

The Parisians are now improving their breeds of frogs by crossing with imported frogs from North America. The French breeders expect wondertul things from this step, as the American frogs are twice the size of the French, and the demand for 'pate de frog gras' increases daily. Buenos Aires ought to be able to start an export business in preserved frogs, and we suppose it would pay well. We commend the matter to Mr. Romani.

The National Government has sent a Police Commissary to the Alvear Colony to 'execute' those settlers who have not paid the advances made to them by Government. It would have been better to have waited till after the coming harvest, when the colonists might be able to pay something. When their friends in Europe hear of their 'execution' they will naturally think they have all been hanged, and that Debt is a capital crime in this blessed country.

Mr. Santa Maria will be officially installed as President of Chile to-day.

We hear that Mr. Kramer will provide for the 'inner man' at the Lujan Races to-morrow. The right man in the right place. The Clerk of the Weather had a tear (perhaps it was a 'drop') in his eye yesterday, and we are nervous as to his good behaviour to-morrow.

We have been favoured with the programme of the Italian fete to come off on Tuesday, but want of space forces us to hold it for our next.

ON 'CHANGE.

Sept. 17, 1881.

Patacons	25.55
Cedulas A	99½
National Bank Shares..	125

The gold market ruled very dull to-day and presented a complete change from yesterday; only 48,289 pats. sold cash, opening at 25.55, dropping to 25.50 and closing at 25.55. For end of month 120,000 at 25.60. Evidently the better feeling in the market to-day was attributed to Congress having again taken up the Chilian Treaty Question, and the general conviction is that the Treaty will be ratified by both countries.

In Cedulas there was a very sharp reaction, and the news in the keeping of a few was that the Bank has decided to stop the further issue of the 3 per cent Cedulas, which appears to be authentic; only those applications at present before the bank will be entertained; all new applications to be for 6 per cents, which is an admirable step of the Bank, since it will help mortgagors and help the market.

The purchases of Cedulas to-day were very large, 283,000, of which 58,500 for cash, price for Oct. advanced even more than for cash or for the end of the month; the stock for cash opened at 98½, and clos d at 99½, and for end of month began at 98½ and closed at 99½. For Oct. 115,000 bought, opening at 98½, and closing at 99½. For Dec. 30,000 at 98.

Nat. Bank shares ruled very much quieter; prices however were well sustained; the future of the market they say, hangs on some hypothecated 6000 shares, which, if the loans are not renewed will drown the market. The discount brokers were all up in arms at us for stating that gold was to be had at 6½ p. cent, and we are corrected by them, as they insist nothing is to be had, gold or paper under 8, and even 9, but we note that for speculation there is always money to be had in the market, and the money for the hypothecated shares will probably be found after all. The share market opened at 125 cash, ran up to 126, and closed at 125; 465 shares sold. For end of month 1,700 shares sold, opening at 124½, and rising to 126½, closing at 126. Speculation for October has at last begun in real earnest 127 seems about the figure, sales to-day were far heavier than for end of month. It is clear that the ring does not believe in a fall; prices began at 126, rose to 127½, and closed at 127; the sales reached 2,600 shares.

We know from good source that the exact number of shares upon which the National Bank has, up to this date, paid dividend is 55,037 shares.

Respecting London telegrams there are messages of yesterday morning's date in town and nothing about Bank rate, which clearly shows that there has been no alteration, otherwise the Provincial Bank would have been notified.

Messrs Hunter & Ritchie, of Paysandu, were welcomed on 'Change, they report the camps better up there now, but the estancieros have suffered severely.

The French packet has brought us out 3 or 4 of our well-known wool buyers Messrs Armengeand, Lartigue and Caillard, and we heard on 'Change that some half dozen of buyers have started already for the camp to have a look at the flocks and perhaps to buy on contract.

Mr Chas's splendid rams, some of the finest in the country, arrived at Bullrich's to-day. We advise our friends to call and see them, they will be sold on 22nd.

Most of the English brokers hope the Camara Syndical will close the Bolsa on Monday for the Races, the same as they do in London for the Derby.

We made every enquiry in the market touching the rumoured failure of a London Bank, and have traced the rumour to the following, which appeared last month in a London paper :—

"Some little time since we called attention to certain absurd statements made in the prospectus of the Anglo-Universal Bank and pointed out the unbusiness-like character of the whole scheme. Since then the company has gone from bad to worse, and the following remarks from our contemporary, the *Paris Bourse*, may not be without interest :—

"The Anglo-Universal Bank, although but recently started, is already in possession of a past, and a past most obscure, but which appears to have altogether compromised its future. The first capital is lost. This loss will have served to put a little lead into the director's heads—experience cannot be paid for too dearly—so that the shareholders may rest assured now that the second capital which they are invited to subscribe will be better employed. This is about the same reasoning which was held at the European Bank, after the events with which everybody is familiar—a reasoning which certainly comes from a kind heart, but which, we are bound to confess, is not of a nature to cheer up the unfortunate shareholders, who already see their shares reaching the price of zero. Thanks to the double mechanism of this administration, it happened that, while the London offices were losing, without the consent of the Paris offices, by speculating on the Stock Exchange, the Paris offices, likewise, probably, without the consent of the London offices were emptying the coffers in favour of a portfolio which is of no more value at the present moment. In fact, everything is lost, or very nearly; that is the result, and we do not wish to go beyond. The Paris board throw the blame upon the London board, and the matter will be carried before the courts; in the meantime, let us wait while justice solves the past."

This Bank, it will be remembered, last year opened a credit for the National Government of £100,000, but although the Government paid the brokers a commission of £1,000 on the business, the credit was never used beyond £1500 to £2000 stg.

We have received another strong letter from our German Subscriber, but it must stand for our next.

The Provincial Bank discounted yesterday two millions currency.

Mr. Unzue has sold several lots of wool from 63 to 74 m|c.

It was announced that 10,000 arrs. wool were sold this morning, but prices reserved. Mr Unzue sold this morning from deposit 3500 arrs. wool at from 75 to 85. Wools are moving fast.

Complaint was made at the rather early closing of the Provincial Bank Bills of Exchange Office: half-past 2 o'clock is altogether too early for the day before the mail closes. Thus to-day takers for Savoie's mails to-morrow were forced into the open market, the Provincial office being closed, and much was done by the merchants at 48½ paper. We heard of Chilian sight bills, £8000, passed at 49½.

At after hours shares held at 125½, and Cedulas at 99½ sellers for end of month: gold no change, and things rather dull.

The payments were light, and not much produce paid for this Saturday.

Mr Walker, from Bahia Blanca, the manager of the great Tornquist estancia, has arrived up and was welcomed; also Mr Lowry, of Montevideo, and Mr Glover, of Rosario.

Messrs Tomkinson & Dungey, the leading shipbrokers, have been named agents here and in Montevideo for the popular Donaldson line of steamers. We congratulate these gentlemen on this important appointment.

The sale of 13 leagues at Negro Muerto, on the Rio Negro, we reported the other day at 45,000 m|c per league; an English merchant of this market the buyer.

The Savoie will take New York mails to be forwarded by Messrs Lamport & Holt's steamer of 25th from Rio.

The Pascal left Rio on 15th for this, bringing New York cargo ex Dalton.

The Herschell arrived in Montevideo with 1600 tons cargo for this port; will be up on Monday and leaves 1st Oct. for Bordeaux direct.

Mr Poelmann from Hamburg, who has arrived in the Niger, was welcomed on Change; with pleasure we learn that he comes out to establish a new factory for a new industry in this country, namely, powdered meat; anything in the meat line ought to succeed out here.

The steamer Frankfurt sails on 25th, she has already engaged 600 bales at 20s and 10 per cent.

Messrs Baltar & Quesada gave round circulars to-day about the fine estancia land they sell on 20th inst., a great chance for those who want to buy good land cheap.

Mr Kemmis left to-day for Las Rosas.

The Western railway first train now starts at 5 a.m.; people ask when on earth will the line be opened to Arrecifes: we believe the earthworks are all finished, but we hear nothing about the rails, still something is doing, as we learn that they are about to put up two stations, one on Mr Michael Duggan's estancia in Areco, and the other on Mrs Urioste's estancia, still the works ought to be pushed ahead faster.

We understand that nothing as yet is decided as to the President going to Moron this summer.

Messrs Lavarello and Guiterrez were the brokers who sold the Haedo corner San Martin and Piedad, and Don Manuel Cobo the buyer; 34 varas Calle San Martin by 35 varas Calle Piedad.

The project of a new Bolsa appears to have ended in nothing, according to the result of last night's meeting.

Amongst real estate brokers there was great talk on Change about the proposed sale of the Scotch Church in Calle Piedras, or rather the exchange of the site and edifice for a large corralon or site on the Calle Larga, Barracas. As we have heard nothing of this business from any of the Trustees or Churchwardens, we are rather slow to give importance to the mere statements of the brokers, who affirm that the business is in a fair way of being concluded. To our view it would be better if the Scotch Community selected a new site at the north end of the town, as the Calle Larga, Barracas, seems to be a very long way out for the Congregation. Nothing more central than the present site of the Scotch Church will be found in this city, although it must always be remembered, that the site is now so valuable, that it may suit the community to exchange for a less valuable site, and with the surplus purchase money erect a larger and more commodious temple.

The news on 'Change to-day about the Chilian question was much better than yesterday. The debates in Congress have been resumed, and people who ought to know how the question stands insist that the treaty will stand and be approved of by both countries and both Governments.

Mr. Letzina's statistical book on the trade and commerce of the Republic is taking the run of all the papers. It is the most complete work of the kind ever published in these countries, and we strongly recommend merchants to send to the Statistical Office and obtain copies before the edition is exhausted. Our wool trade for the year 1880 was as follows, exports in kilos—

	Kilos.	Value.
Ajo	961	269
Baradero	836,715	239,829

This table shows at a glance the wool exports from the respective Custom Houses.

To-day was another beautiful Spring day hot enough perhaps for Summer, but the season appears to be coming in very fast this year, and in another 3 weeks they will be shearing in the North.

A broker assured us to-day on Change that there are over 250,000 sheep now offering for sale in this market; of course to find buyers for all these is out of the question. Cattle are also more freely offered, and we hear that in a few weeks there will be 20,000 head of cattle at Campana for sale, brought over from the E. Oriental.

The Water Board, we hear, has approved of Mr Bateman's estimate, and sent same to the Minister. We note in the London papers by the mail, that many of the London householders have sued the Water Companies of London for insufficient supply of water last July, during the great heat, as yet these cases have not been decided, but we watch with some interest the result.

The French mails bring the following about the London money market :—

"The Bank Directors have advanced the rate of discount to-day from 2½ to 3 o/o. As we intimated yesterday, the return issued this afternoon shows no material change from that of last week. The effect on the reserve of the withdrawals of bullion during the week has been more than compensated by a further reflux of notes from the country circulation, and the proportion of the reserve to liabilities has even slightly increased to 43⅜ o/o. But the further fall in the New York exchange telegraphed this morning and the reports of increasing stringency in the New York money market appear at last to leave no doubt of an actual drain of gold to America setting in, and, as has been all along anticipated in that contingency, the Bank Directors have at once raised their rate. So much did the latest telegrams feom N. York cause this change to be expected that business in the open market this morning was largely done conditionally upon what the Bank rate might be, and after the change the open market at once responded. The rate this afternoon for 3 months' Bank bills is generally quoted 2⅝ o/o, with a quiet business, the rate of 4 months' bills being still higher at 2⅝; but call money is still offered in excess at the nominal rate of 1½ o/o. The expectation in the market would thus appear to be that the tendency will still be upwards, and the reports from New York still point to increasing stringency there, so that in spite of the advance which has taken place here the withdrawals of bullion cannot be considered at an end. It is understood, in fact, that some further sums are fixed to be taken this week for New York. Should the withdrawals continue, the Bank rate must, of course, be raised to the point necessary to maintain the reserve, either by checking withdrawals or by attracting a supply from elsewhere.

"The discount houses have given notice of an advance in their allowances for money to 2 o/o for deposits at call, and 2½ o/o for deposits at notice. The private and joint-stock banks have also raised their rates for deposits in correspondence with the rise in the Bank rate.

"As usual, the rise in the Bank rate has been immediately responded to by a movement of the Continental exchanges in favour of this country. Exchanges in France, Belgium and Holland have all moved in that direction. There has been a strong demand for bills on Italy, on which place paper is exceptionally scarce. It is stated that 81,000,000 in Russian imperials left Holland yesterday for America.

"The stock markets were flat at the opening in consequence of the fall in the N. York exchange, and the expectation that the Bank rate would be raised. But after the advance took place there was a recovery. Finally, in hardly any case is there much decline, but the tone is generally rather weak, except for foreign stocks, which are steady at an advance for the day."

We have received the following for publication in this column :—

B. Aires, Sept. 13th, 1881.

My dear Mr. Mulhall,

Emboldened by the flattering reception accorded to my letter of the 24th ult. I venture again to intrude on *The Standard*. The information afforded in your article entitled "Agricultural Farming" is most satisfactory and encouraging; I would proceed at once to the inspection of the Rio Negro lands, but that to leave home in this busy time would be highly inconvenient. I fear I must postpone doing so until the sheep are shorn. In the meantime, I would like to communicate with Mr Kincaid by letter, if I knew his address; as I have no doubt he would willingly give me a reliable account of the said lands.

The "sine qua non" of all farming resolves itself into three leading conditions, viz: good land, good water, and some degree of protection from Indians and other marauders. Other considerations scarcely less important are a supply of fuel, as many classes of 'leña' abundant here is not to be found there; then building materials, posts and wire for fencing. This last I consider so beneficial that it will be my first care after providing a house, well and corral. Another matter not to be overlooked is facility for communicating with some market or centre of commerce.

Yours truly,

VIKINGE.

Cien leguas de Campo
En Santiago del Estero
Orden del Exmo Gobierno de esa Provincia
Con derecho a ubicar donde se quiera
Primera vez que se vende con esta condicion
SIN BASE ALGUNA
Venta a Plazos
En nuestra casa San Martin No 51
El Martes 20 de September
A las 2 en punto de la tarde

Venderemos al mejor precio y a plazos, por orden del Exmo. Gobierno de la Provincia de Santiago del Estero y con acuerdo de su Legislatura.

Cien leguas de campo, divididas en lotes de a cuatro, teniendo sin embargo el comprador derecho a tomar desde una hasta las cien.

El Gobierno de Santiago ha sido, como lo decimos, autorizado por su Legislatura a vender esta gran zona de tierra, pero a objeto de facilitar la operacion, la venta se hara sin otro plano que el de la Provincia, por cuanto se da el derecho de ubicar donde se quiera, dentro de los limites de la misma.

Con este derecho cualquiera persona que este en el secreto de la situacion de un campo inmediato a la plaza principal, a las quintas contiguas a la ciudad o por sus alrededores, puede pedir su ubicacion alli mismo, como tambien los que conozcan donde existen los que puedan tener pastos de primera calidad aguas permanentes, montes, etc.

El Gobierno de Santiago no pretende con esta operacion hacer un negocio.—Su objeto se limita a fomentar el progreso de su Provincia, poniendo la tierra al alcance de todo el mundo, llamando asi a su centro la formacion de grandes establecimientos y la poblacion consiguiente.

A cada comprador se le dara un boleto con un numero de orden y en el cual se fijara un termino para pedir la ubicacion, de manera que el primera que compre, sea el primero que elija y asi sucesivamente.

Siendo la venta dentro del territorio de Santiago, ningun otro gobierno iniciara protesta alguna, lo que importara garantizar un titulo perfecto y libre de todo gravamen, habiendose resuelto que las escrituras se otorguen ante de oficina de un escribano de esta capital.

El pago se hara mitad al contado al estenderse la escritura y el resto a 6 y 12 meses en garantia del mismo campo.

En resumen:—Jamas se ha puesto en venta un lote de tierra en iguales condiciones y desde hoy el publico debe preocuparse de averiguar en que punto pedir la ubicacion del numero de leguas que necesita para la plantacion de establecimientos de campo, ingenios etc.

No obstante de tener, aqui en Buenos Aires un apoderado general el Gobierno de Santiago nosotros daremos mas pormenores en nuestra casa San Martin 51.

THE STATE OF IRELAND.

Dublin, Aug. 14.

A man named Leonard was shot to-day, and, it is feared, fatally wounded, near Doonane, in the colliery district of the Queen's County. His sister is married to a man named Rorke, to whom he gave up the farm on going to England. Rorke surrendered possession to the landlord, who let it to another tenant named Donnelly. Leonard recently returned from England and demanded his farm back, and was shot, it is believed, by Donnelly in attempting to take possession. Another account states that Donnelly was a labourer in the employment of a tenant who took an eviction farm and has been Boycotted. Donnelly was driving a bull on the road when he was hooted and pelted with stones by a mob, and, drawing a revolver, he fired into the crowd, and shot Leonard, a boy abou 16 or 17 years of age, in the breast. The doctor has no hopes of his recovery. A larger crowd assembled and stoned the small party of police in the village. They would have lynched Donnelly but for the intervention of the priest.

A convention to be held on the 15th of September will express the view of the Act which the Land League desires the country to take. Whether tenants will adopt it remains to be seen. If their natural intelligence has not been blunted and their moral sense deadened by the efforts of the agitators, they will accept the substantial advantages which the measure will confer upon them, greater than they dreamt of two years ago, and refuse to be led away from the path of profitable and honest industry by the false light of a visionary programme. The success or failure of the measure will depend much upon the character which is given to it at the outset, the interpretation which it receives from the tribunals, the firmness and fairness with which it is administered, and the influences which are exercised to allay the fever of popular excitement, to restore the moral tone of the people, and to bring them back to peaceful and orderly habits. In this work the clergy as well as the Government will have a difficult but imperative duty to perform. It is worthy of their best efforts ; and if they are successful, as it may be hoped they will be, they will find the highest reward in the tranquility and contentment of the country.

An attempt was made on Monday night after a land meeting, held at Taghmore, county Wexford, to retake possession of a farm from which a Mrs Walsh, mother of the Rev. Mr Walsh, a Roman Catholic, had been evicted. The house had been in the charge of two caretakers, put on by the Property Defence Association, and four policemen. One of the men having been taken ill was obliged to leave. The police apprehending an attack after the meeting, brought the man into New Ross and strengthened the garrison to a force of 21 constables. On Monday night the rev. gentleman came to the house with a large mob and demanded possession. It was, of course, refused, and the mob then began to throw stones. The police threatened to fire and the people, seeing the guns pointed at them, withdrew. The caretaker complains that the water in the neighbourhood had been poisoned.

Considerable dissatisfaction has been excited by the fact that labourers have been brought over from Liverpool by the Property Defence Association at very high rates, while hundreds of labourers in Ulster are quite willing for moderate wages to do any work that may be required.

Cork, Aug. 14.

During the past three days evictions have taken place on the well-known Mitchelstown estates, county Cork, and, as on two previous occasions this year, the services of the Flying Column aided the 200 police who were called in to assist the sheriff in enforcing the law. The tenants are rented very little over the valuation, and yet troops amounting to a small army have to be called in to assist the landlord in getting his rents. The tenants say they would accept 10 per cent reduction, but this the landlord would not give, and hence the present series of evictions, numbering 200 on one estate. The tenants are very comfortable in the main, and, with one or two exceptions, the 40 already visited by the sheriff on the 'passive resistance' policy had been pursued to the extent of causing the bailiff to break in the doors and windows, which were stoutly barricaded. Miss Anna Parnell attended at the evictions and advised the tenants not to pay. but her advice was disregarded In two instances the tenants were unable to get the money for the rent' Mr. Eaton, the resident magistrate, had to ask the police to keep Miss Parnell from obstructing the sheriff, but Miss Parnell succeeded in getting before the sheriff to every every house and speaking with the tenant. She performed wonders in jumping over ditches and racing across fields from house to house. She seemed none the worse after three day's fatigue of this kind. The evictions will be resumed on Monday and will in all likelihood continue for another ten days.

Cork, Aug. 17.

The news of the termination of the political crisis has been received in this county with a great sense of relief, but it is no exaggeration to say that the future of the measure is involved in a great deal of uncertainty. It is affirmed on the one hand that the great masses of the tenants will now fall away from the Land League, and on the other that that body is necessary to shed the light of day upon the proceedings of the new Land Court. The only thing certain at this moment is that no visible signs for determining which of these views is the correct one will manifest themselves for some time. There is no doubt a great craving for rest among the shopkeeping and the business classes generally, which, of course, must have a reflex action upon the farmers ; but the influence of the Land League is not at all to be despised, and, credited as its leaders are with ulterior objects, no very sanguine view is entertained that we shall see anything like a period of rest yet. As far as the farmers themselves are concerned, there can be but little doubt that with the great masses of them a generous reception of the Bill by the landlords, and the determination on their part to work it honestly, coupled with the appointment of men of impartiality and ability as Sub-Commissioners, would go a great way towards establishing a feeling of confidence that would be the best precursor of a reign of peace. Among all impartial people it may be said the feeling is universal that upon the conduct of the landlords themselves and upon the honest working of the Bill must depend the question whether the re-establishment of the normal order of things is to be immediate or remote.

The evictions on the estate at Mitchelstown were resumed at 10 o'clock this morning. Owing to the weather and the great amount of obstructions met with in the way of barricading, the progress made was very slow. In all nine tenants were visited, and of these five suffered themselves to be evicted. The porch of the house had to be torn down in almost every instance before an entrance could be effected, and the houses in general were then discovered to be filled with thorns, cart-wheels, huge stones, mud, and other articles difficult to remove. At one of the houses two hours were spent in clearing away the obstructive articles placed in it.

Five houses were burnt down at Cloghan, King's County, on Tuesday night. It is supposed that they were maliciously set on fire. Some of the inhabitants narrowly escaped being burnt. A quantity of hay, amounting to about 40 tons, belonging to a man named Henderson, was also burnt at the same time. Other hay burnings are reported in an adjoining locality. The sufferers by these incendiary fires dare not apply for compensation, and their situation is consequently deplorable. No arrests have been made, but a large body of police have been sent to the neighbourhood to investigate the matter.

A telegram from Lismore states that for the past two days no labourers could be got to cut the harvest on a farm from which a tenant named May has been evicted, though very high wages have been offered. The Emergency men, therefore, have been sent for.

On Wednesday morning a bailiff, while serving ejectments near Kilskeely, was attacked by a party of women and severely beaten. No arrests have been made.

A cruel outrage was perpetrated at Downpatrick, Mayo, by some persons unknown, on some cattle belonging to an unpopular farmer. The tails were cut off several of the animals, while in other instances the tails were slit up to the base.

EDITOR'S TABLE

(Continued from third page)

Another audacious robbery of a whole flock of 2000 sheep has been perpetrated in the partido of Azul, and of which we have obtained the following particulars. The sheep were stolen from their owner, Mr Thomas Barnes, in the middle of the night, and the theft was only discovered on the following morning. The thieves, in order to make identification more difficult, countermarked the animals. About 80 of the sheep were traced to and found on the camp of Juan Riono, in the chacras of Tapalque, with Riono's señal quite recently cut on them. Subsequently the efforts of Sub Comisario Orzabal were completely crowned with success, he having found the remaining 1900 sheep at the puesto of Don Manuel Porcel, a neighbour of Tapalque. The peon in charge of the flock declares that he herded them by order of Don Enrique Justo 'the Juez de Paz of the partido!!' Porcel, Juan Riono, the alcalde of the cuartel, and the peon are now in prison and the sheep in the hands of the police. Since the above happened a person, named Frias, has presented himself stating that he was the previous owner of the sheep and that he had sold them to Porcel ; but Mr Barnes's legal adviser denies this and requests Frias to produce his boleto or guia as a proof of his assertions. We shall watch this case with much interest, and will endeavour to keep our readers 'au courant' with all concerning it. About 12 months ago a similar case of stealing a flock of sheep from an Irishman occurred in the partido of the Monte; but thanks to the very energetic measures taken by the Juez de Paz, Mr Roque Larguia, the thieves were all captured, and the stolen sheep recovered near S. Pedro station, on the Southern Railway We wonder whether these men were ever tried, and if so, what punishment has been awarded them. Not many years ago, hanging was the penalty in England for horse stealing, and it soon, and most effectually, put a stop to the trade. Were such a law introduced here rope manufacturers would do a roaring business for a short time, and camp men could snore at their ease after each weary day's hard labor. If Gov. Rocha wishes this Province to go ahead, he will see the necessity of devoting all his attention to camp interests in preference to any others and will make short and decisive examples of these and like marauders.

We received another pamphlet yesterday on the new Capital of the province question. We'll read it, but hereby make a solemn vow that it shall be the last one on the subject that we'll ever touch. We have no fewer than six old hat-boxes all filled with pamphlets on this topic.

We are sorry to hear that our highly talented colleague, Dr Bilbao, editor of the *Libertad*, is laid up with asthma, but trust his illness will not be of long duration.

The storm in Rosario vented its fury principally on the telegraph wires and posts, which were blown down, twisted and otherwise seriously mauled by 'rude Boreas' from San Pedro to Coronda.

The very latest from San Juan is that they have found up there white and coloured marble, two silver mines and one gold mine. The marble is being used in building ; but as yet the gold and silver extracted would not suffice to make a decent toothpick, or get a man through the 'I thee wed' ordeal on the happiest day of his life.

The *Razon* of Tucuman says that Messrs. Anchorena, Unzue and other large holders of National Bank shares, slipped off the 'tired horse's back at 115. He was not tired then, but he is now.

The Locusts have done no great damage in the Interior as yet. Wherever they have appeared they were always Southward bound.

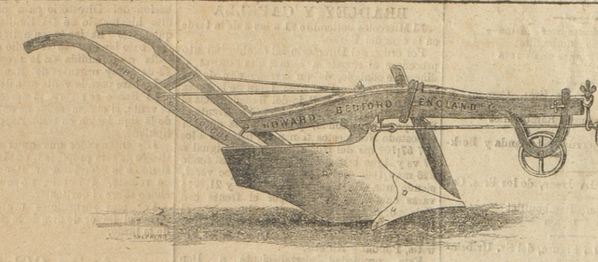
HOWARD'S IMPROVED AMERICAN PLOUGHS



The above represents the well known 'Eagle 75' Plough which, and other sizes, are manufactured by J. & F. HOWARD in the highest style of workmanship, and tens of thousands are in use. Several manifest improvements have been introduced. As shown in the engraving, the body clips the beam, and the 'centre draught' is also taken from the strongest part of the iron body,—thus giving an additional security against the beam breaking at the bolt holes—a very common occurrence with American made Ploughs.

The beam is made of Oak, and can if required be fitted with a steel plate on each side.

The shares are hardened upon J. & F. HOWARD'S well known patented *water-chill* process, which renders them not only tough and hard, but ensures their wearing better and longer than made when by any other process.

Prices of the various sizes, Nos. 19, 19½, 25, 26, 55, 75, &c., sent on application.

The above Implements kept in Stock by the Principal Hardware Merchants.
